DEATH OF A GOOD WOMAN.

On the evening of Aug. 31st, about 5 o'clock, Mrs. Nancy Cravens was called from this world to that bright home of the saints, just over on the other shore. The cause of her death was a complication of diseases. She had been confined to her bed for the last four months. Nancy Cravens was born in Russell county, March 18, 1840. She was happily married to Fred Cravens, April 14, 1879. To this union was born two children. Her husband preceded her to the great beyond years ago. In early life she accepted Jesus as her Saviour and united with the Baptist Church and was a devout member until the end came. She had a lovely disposition and was good to the sick, always having a kind word for everybody. She leaves two children two brothers and three sisters and a host of relatives and friends to mourn her loss. We wish to say to her dear children, prepare to meet your mother in that land where there's to be no more sad parting.

Funeral services were by Moses Foley, after which the remains were laid to rest in the Abrell graveyard.

McFARLAND.

Mrs. D. C. McFarland, whose home was near Montpelier, died a few days ago. She was about fifty years old and was a victim of typhoid fever. She was one of the best women in the community, and the loss is deeply felt by a large circle of relations and friends.

Mrs. A. Hunn is the owner of a very affectionate cow. A short time ago Mr. James Garnett lost his cow, leaving a young calf. He gave the calf to master Lucian Hunn who placed it with his mother's cow, she having no calf. A few days ago Mr. Joe Coffey's cow was taken sick. She had a young calf and that was turned over to the Hunn cow. Both calves and their adopted mother are getting along nicely, the mother giving as much attention as she would were the calves her own.

Mrs. Mary Garnett has transferred to Prof. C. R. Payne about nine acres of land lying to the right of her home residence. The survey will begin at the culvert, near where John T. Barbee lives, and will run with the old road to the Russell Springs road. Consideration, \$2,500. Prof. Payne will erect a handsome residence on the knoll, one of the most commanding views about town. A street will also be opened by Prof. Payne, running from the Campbellsville pike through the premises.

Exhibitors of swine at the Kentucky State Fair will congratulate themselves and the State Fair management upon the announcement that Prof. J. J. Ferguson, with Swift & Co., of Chicago, has been secured to judge the swine rings at the coming fair, September 17th and 22d. Prof. Ferguson is an expert whose judgment of hogs will hardly be questioned by any one.

Prof. A. H. Ballard has bought a half interest in E. L. Sinclair & Co's wholesale house and hereafter the style of the firm will be "Columbia Grocery Co." Prof. Ballard is a gentleman possessing excellent business qualifications, and will devote his whole time to building up a large trade throughout this section. Mr. Sinclair has been in the business for more than two years and has met with good success.

Corn is rapidly maturing and unless killing frost comes earlier than usual the entire crops will be saved. It is predicted that the market will open at \$1.75 per barrel, but we do not expect it to be under \$2.00. It is certainly worth \$2.00 to grow it, it matters not how plentiful.

Persons who will be in Columbia next Monday, opening of Circuit Court, and who are indebted to this office, are requested to call and pay up.

SMOOTHNESS IN WOMANHOOD AND GIRLS.

A young lady approached me the other day and requested that I write something smooth about the ways of girls and women. Of course I couldn't refuse, and I told her I'd do my best, although I hadn't studied up on that subject for some little bit. The first thing I did was to get a piece of glass and put my paper down on it. She asked me why I did that, and I informed her, so that the writing might be smooth, whether the words were or not. She seemed to not understand my meaning, and departed from me with a puzzled look on her face. Now when a boy goes to writing smooth about girls and women he must be one of those good natured fellows that doesn't take offense at anything, because if he is high-strung a giddy girl may say something that might throw him out of gear at any time. As we are talking about smoothness in women I will relate an instance that occurred to me in this town not long ago. I was solicited to come to the home of a certain woman in the southern part of the city to practice my profession on interior decorating. During the progress of the job, when I reported for duty one morning, she cried out just as soon as I got on the front veranda: "What made you so late this morning?" She frightened me at first, but when I pulled out my "regulator" I assured her that I was only 1 minute and 47 seconds behind the promised time, but she seemed not to be satisfied still, and kept fussing around. So I told her to make a calculation, at so much per hour, and deduct the lost time 1 minute and 47 seconds from that amount. She also looked like she had been struck with an iceberg and left the room hastily. This is what I call a smooth woman, with the rough side turned out. On the other hand I was engaged at another place in this town, and the young lady would ask me to wait until about 8 or 9 o'clock before I began work, and in the afternoon I would quit at 4 or 5. She never did question my time or make any remarks about my work. She

is what I call a smooth girl, with no roughness to turn out. Some girls are smooth at home, and others are smooth abroad, while others are smooth all the time. This is the smoothest smooth thing that I can write about girls and women at this time. F. McL.

Sam Lewis has four mules at his place of business which he would sell if he could find a buyer. They are perfectly red, which is very remarkable, and he guarantees them to be in stationary condition—warrants them not to kick and will give ten dollars to any man who is the owner of four mules that are kept at less expense.

Mr. Frank Sinclair has awarded the contract to the Columbia Brick Company to extend his store building back to the alley, a distance of twenty feet, two stories high. The work will begin at once, when this addition is completed Mr. Sinclair will have one of the most commodious store buildings in the town.

A VOICE FROM FAIRPLAY.

I desire to say that I am proud of the Adair County News. It stimulates our boys, nearly all of them engaged in some kind of enterprise.

I have visited other counties recently and was asked what makes Columbia grow so rapidly. It is because the people of Adair county want a town. I love our town and the people of Columbia love the country. We all intend to work together for advancement. Our county is full of speculators. Timber men are as thick as wildcats in the mountains of Arkansas, and they are given a hearty welcome. There are no better business men than can be found in Columbia and Adair county, and the ladies, God bless them, are as handsome as pictures. The hospitality of the county can not be surpassed. So let us push forward until Columbia becomes a thriving city and the county throughout the most enterprising in the State.

FOR SALE:—My farm lying on the waters of Sulphur creek, Adair county, containing 70 acres, between 50 and 60 acres in bottom, the remainder wood land, new dwelling of 6 rooms, well watered, orchard and necessary out buildings, four miles Southeast of Columbia. For further particulars, call on, or address, G. A. SMITH, 44-1m Columbia, Ky.

There are quite a number of typhoid fever cases in the county and there have been several deaths. Cleanliness is said to be the surest agency to ward off this deadly disease, and it behoves every body to keep their premises in a good sanitary condition. Do not wait until the malady reaches the community before you begin to clean up.

The Faculty of the Male and Female High School is well pleased with the beginning of this school year. The attendance the first week was much greater than last year, and with the present opening the management feels sure that the old building will be well filled with pupils by the end of the month.

The visit of Marshal Cundiff to this town, two weeks ago, has had a fine effect. Several bootleggers were arrested and carried to Louisville where they will be tried in the Federal Court. Before his coming, it is said, it was but little trouble to get a bottle of liquor at any time. Now, we are told, it is almost impossible to secure it. A darkey was asked on the streets a few days ago if he knew any person who had whisky for sale. His answer was: "Pshaw, you can't get negroes to handle red apples."

Mr. D. K. Pelley, of Pellyton, one of the best citizens in Adair county, was here last week looking at town property with the view of buying a home and removing to Columbia. He looked at a number of dwellings and was well-pleased with several, but he did not purchase. When he left he stated that he would return the first week of court and by that time his mind would be made up. He also wants to purchase a farm near town. As above stated there is no better citizen and we would be glad to have Mr. Pelley locate with us.

Chapman Dohoney, of McKinney, Texas, writes the News as follows: "Inclosed find one dollar, for which move my subscription up one year. I anxiously look for the paper every Friday morning—just like getting a letter from home. Too much rain in Texas. Cotton is not very promising in Collin county at this writing. Success to the News and old Adair."

Do not send your sons and daughters away from home to be educated. We have two first-class institutions here in Columbia and local schools, every thing equal, should receive the patronage of home people. Besides, tuition and board is much cheaper.

It is said that squirrels are plentiful, but very few are being brought to market. The town is hungry for wild meat, and if hunters would bring in squirrels they could readily get the cash for them.

Bring your logs to the Standard Hard wood Lumber Company, and get the cash. 39-1f
